

GIVE YOUR TEENS CONFIDENCE THAT WILL ENDURE FOR A LIFETIME

Teens can be demanding. Put them in the diver's seat of their finances and help them start paying their way.

Teens know everything, but the financial concepts the lie ahead of them can either be met as a stumbling block or a stepping stone.

Rather than let them figure it out for themselves (we've seen how that ends up - just look at our generation), give them the tools and the confidence to go out into the world and make something of themselves.

WE'RE HERE TO HELP YOU BUILD THE LIFE OF YOUR DREAMS, NOT LIVE THE LIFE OF YOUR MEANS!

Through interactive activities, we teach your teens how to make and manage money, as well as all the fundamentals of finances that our generation never new about before it was too late.

We have crafted a series of financial literacy lessons and extra-curricular activities where our Savvy Teens get hands-on experience and are exposed to real-life applications of real money matters.

We do not believe in one-size-fits-all, so we've also got a range of customised programs from which to choose.
